Student success is associated with students having their basic needs met. Many students experience barriers to meeting their basic needs as they strive to earn a higher education degree. When students experience personal crisis or an emergency situation, they may be overwhelmed by the circumstances of the situation. This may include food or housing insecurity, child care needs for young parents, and emotional or mental health struggles.

If you need additional information or help, please call or visit the Student Affairs Support and Opportunity Center in EN B222

Contact the Office

The office is located in Engleman Hall B222
Open Monday through Friday 8:30 am - 4:30 pm.
Fax: 203.392.7128
